If I have symptoms (fever, cough, aches and pains...):

- I self-isolate, I stay home
- PCR or antigenic TEST
- If your symptoms worsen: contact your doctor or call 15 immediately (emergency services)

Vaccination status

- I am FULLY vaccinated or Covid infection less 4 months

I have been in contact with a confirmed case of COVID-19**

- TEST (PCR or antigenic or Self-Test) D+2
- If my Self-Test or antigenic TEST is positive I take a PCR to confirm and if it is still positive, I follow the procedure
- If my test is negative: I do not self-isolate and I can go back to class

I have tested positive for COVID-19

- I self-isolate for 7 days after the first symptoms or the day of the test if I don’t have any symptoms
- I warn my manager
- I warn my close contacts (for the last 7 days)
- End of the self-isolation at the 5th day if I get a negative PCR or antigenic test at the 5th day/
or if I don’t have any symptoms for the last 48h

- I self-isolate for 10 days after the first symptoms or the day of the test if I don’t have any symptoms
- I warn my manager
- I warn my close contacts (for the last 7 days)
- End of the self-isolation at the 7th day if I get a negative PCR or antigenic test at the 7th day/
or if I don’t have any symptoms for the last 48h

I am NOT vaccinated or NOT FULLY vaccinated or Covid infection less 4 months
